****Please note that this image is NOT included in this resource. It is a way of showing you how to fold and use this resource**

Trim the margins from the top and the bottom of the page. This is so your folding will be equal and correspond with the lines drawn. The face will then match up correctly.

Take the top of the piece of paper and just fold downwards in half. The image will be on the inside.

Fold the bottom quarter upwards

You have your foldable ready to use.
