### Walesby 2019

Our year 6 had a fantastic first day at Walesby. Climbing, archery, wobble pole, plank challenge, great food and races and football for evening activities. All with great weather too!

Despite the weather, the children had another brilliant second day at Walesby. Lake activities, Climbing wall, stacking crates, G swing, assault course and even a bit of dancing in the evening - well done Mrs. Blakeley too! The rain didn't make any difference to how much they enjoyed the day. The heated floor at the end of the day was a welcome relief!

The third and final day at Walesby was as busy and fun-filled as the rest and included archery, assault course, 36 swing and crate stack. A well deserved picnic was had before the bus journey home. All the year 6 children were absolutely amazing and had a fantastic time!

## Minibeasts

In foundation Stage this half term we have been learning about Minibeasts. So far we have learnt about Spiders, Ladybirds, Worms and Caterpillars. We have had some visitors to the classroom, which the children have thoroughly enjoyed, especially the Tarantula. Currently the children are observing the life cycle of a caterpillar, watching them change and grow.

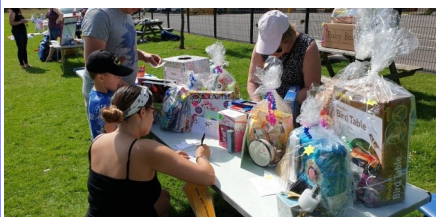

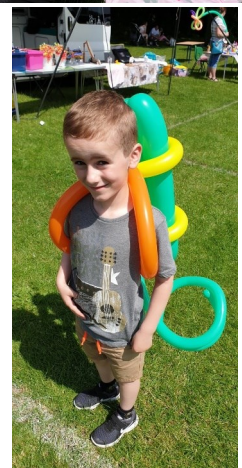

## Summer Fayre

We really hoped you enjoyed the summer fair this year - thank you to everyone who attended, brought in prizes and cakes. We were totally overwhelmed by your generosity. A special thank you to our parent/grandparent helpers, we couldn't do it without you guys, you are amazing.

We also want to say a huge well done and thank to all the children (past and present pupils) who helped out this year... they were incredibly polite, enthusiastic and a credit to our school.

We raised an impressive £1760

## Mr Dugdale's Sports Fact of the Week

Having fun. Lots of us enjoy being active because it's fun. Researchers have shown that there's a link between the things we enjoy doing and improvements in our wellbeing overall. If you enjoy an activity you're also more likely to keep doing it.

## 2MB River Maun Trip

2MB visited the River Maun and worked with the Maun Conservation Group. The children took part in three different activities. They went pond dipping and found small fish and snails. They went on a nature walk and

looked at the trees, flowers and animals that live down by the river. The children were fortunate to see a heron looking for fish. Finally they made a sticky picture of petals, leaves, seeds, twigs of different shapes, sizes and colours. We then walked down to Titchfield park to eat lunch. The children looked at human and physical features of the park and went on a scavenger hunt looking for a range of objects in the park. The weather was perfect and everyone was tired by the time we walked back but we had a great time. A big thank you to the Maun Conservation Group for their help and support.

## Year 5 Transition Day

As part of our transition programme work with our family of schools we are organising a day for all Year 5 pupils to visit Brunts on Wednesday 10th July.

This visit represents an opportunity for the children to have a taste of life at a secondary school, and to begin to familiarise themselves with the Brunts site and buildings. The pupils will spend the day taking part in a variety of activities, which we hope they will find enjoyable. They should wear their normal school uniform.

## This Week...

It's getting really busy in school and there are lots of things happening.

We also have all our Sports Days happening, so please try and come along to support your child and the school. Thank You.
