

SUPPER SUNFLOWER

Seed

Keep away from fire so it doesn't fall apart!

These sunflowers are the brightest most sparkly in the world!

Would you like to compete with your friends to enjoy your amber petals!

1. Carefully put the soil in the pot.

2. Place the seeds carefully into the pot as soon as you have left them check them.

3. Fill the watering can at least twice a day every half an hour or back and check them. 4. Watch the roots pop up they are starting to germinate after a few days there sprouts. 5. Finally they are done.
